

CURRICULUM VITAE

GBOLAHAN A. ONI, Ph.D., F.S.S., M.Sc., BSc.

PROFILE

Gbolahan Oni is currently a Professor of Demography and Social Statistics at Covenant University, Ota, Ogun State, Nigeria. He is a Public Health and Population Scientist with more than 30 years experience in undergraduate, graduate and postdoctoral levels teaching, research, program and project planning and development. He had received high level academic trainings in the fields of mathematics, biostatistics, epidemiology, demography and public health. He had his academic trainings at the following higher institutions – University of Lagos, Nigeria (B.Sc.); University of London School of Hygiene & Tropical Medicine, UK (M.Sc.); Johns Hopkins University Bloomberg School of Public Health, USA (Ph.D & Post-doctorate) and Princeton University, USA (Post-doctorate). He has been using his skills in the above subject areas to explore various public health, population and social issues. Through rigorous research, he had come up with suggested evidence-based solutions to some of the problems. Many of his high level research works conducted independently or in collaboration with others have led to publications in several peer reviewed scientific journals and monographs. As an experienced teacher, he has successfully mentored scores of students through undergraduate, graduate and postdoctoral trainings. He has held senior level positions in academic, research and health programs in institutions in Africa, Middle East and the USA. He has strong administrative, organizational and mentoring skills and ability to work effectively both independently and as a team member. He possesses good leadership and problem solving abilities. Some of his most remarkable professional accomplishments before coming to Covenant University include (i) Leading a team of Nigerian researchers/scientists, to develop a nutrient dense weaning diet, “eko ilera”, for Nigerian infants and young children, made from locally available food items/ingredients and which is also very effective for alleviating complications from diarrheal disease among infants and young children (ii) He was a major player in the creation of sustainable academic partnership programs in Population and Reproductive Health, between Johns Hopkins University USA and eight universities in six African countries including Nigeria, and (iii) He provided administrative and technical leadership in the establishment and implementation of Primary Health Care System in the Saudi Arabia National Guard-Health Affairs (SANG-HA), where he also helped to set up Infectious Diseases Surveillance System. His current goals are to continue to pursue innovative efforts that bring solutions to human health and social problems and to mentor new generation of leaders who will deliver on the promise of better life for all.

EDUCATION AND TRAINING

1. **Postdoctoral Fellowship, 1991 (Population Studies):** Princeton University, Office of Population Research, Princeton, New Jersey, USA.
2. **Postdoctoral Fellowship, 1986 (Population Dynamics).** The Johns Hopkins University, Bloomberg School of Public Health, Baltimore, Maryland, USA.
3. **Ph.D, 1985 (Population Dynamics):** The Johns Hopkins University, Bloomberg School of Public Health, Baltimore, Maryland, USA
4. **M.Sc, 1979 (Medical Statistics/Epidemiology):** University of London, School of Hygiene and Tropical Medicine, London, UK.
5. **Fellow (1979), Royal Statistical Society of London (F.S.S.),** UK.
6. **Postgraduate Diploma, 1997 (Medical Statistics);** University of London School of Hygiene and

Tropical Medicine, London, UK

7. **B.Sc, 1974 (with Special Honors in Mathematics):** University of Lagos, Lagos, Nigeria
8. **Certificate in Statistical Multilevel Modeling, (2003).** The Johns Hopkins University, Bloomberg School of Public Health, Baltimore, USA.
9. **Certificate in Promotion of Best Practices in Reproductive Health (2002),** Washington, D.C. USA.
10. **Certificate in Strategic Leadership and Management Training, 2001:** The Johns Hopkins University, Bloomberg School of Public Health, Baltimore, USA).

PROFESSIONAL EXPERIENCE

1. **8/2013 – Present: Covenant University, Ota, Ogun State, Nigeria –**
Professor of Demography and Social Statistics

Responsibilities:

A. Teaching Responsibilities:

a. Undergraduate level Courses Taught/Coordinated:

- DSS111: Introduction to Demographic Concepts I
- DSS121: Introduction to Demographic Concepts II
- DSS311 : Introduction to Data Evaluation (Coordinator)
- DSS321 : Measures of Population Change (Coordinator)
- DSS322 : Social Statistics II (Coordinator)
- DSS411 : Demographic Data Evaluation (Coordinator)
- DSS416 : Demographic Situations in Developing Countries I
- DSS421 : Demographic Estimation (Coordinator)
- DSS426 : Demographic Situations in Developing Countries II
- DSS429: Research Project

b. Postgraduate Level Courses Taught/Coordinated:

- DSS811: Demographic Techniques I
- DSS814: Population and Health
- DSS821: Demographic Techniques II
- DSS824: Demographic Situations in LDC and Developed Countries
- DSS 825/DSS927: Monitoring and Evaluation
- DSS831: M.Sc. Dissertation Proposal Seminars
- DSS832: M.Sc. Dissertation Post-field Seminars
- DSS841: M.Sc. Dissertation Defence.
- DSS911: Advanced Demographic Technique I
- DSS921: Advanced Demographic Technique II
- DSS922: Advanced Studies in Population and Reproductive Health
- DSS924: M.Phil. Seminars
- DSS925: M.Phil. Dissertation
- DSS951: Readings in Fertility
- DSS952: Readings in Mortality
- DSS954: Advanced Demographic Research Methods
- DSS957: Readings in Epidemiology
- DSS981: Ph.D. Proposal Seminars

- c. Products of Research Projects Mentoring and Supervision (2013-2018):**
- Successfully supervised research projects of 14 B.Sc. Students – All graduated
 - Successful mentoring and supervision of 10 PGD and M.Sc. Students – Seven already graduated and three on-going.
 - Successful mentoring and supervision of 7 PhD Students (4 already completed and graduated, and 3 on-going)

B. Other Responsibilities/Activities at Covenant University

- Conducting Scientific Research and providing research consultations to other faculty members and students.
- Program Coordinator, Demography and Social Statistics Program (2013-2016)
- Chairman, College of Business and Social Sciences Seminars Committee (2014-2017)
- Member, College of Business and Social Sciences Research and Postgraduate Committee (2013-2015)
- Member, Management Board of the College of Business and Social Sciences (2013 – till date)
- Member, College of Business and Social Sciences Appointment and Promotion Committee (AP&C). (2013 - till date)
- Member of Senate, Covenant University (2013 – till date)
- Member, ADHOC Committee, Board of Reagent, Landmark University, Omu-aran (June 2017).
- Member, (ADHOC Committee, Board of Reagent, Covenant University, Ota (June 2017)
- Chairman, Covenant University Convocation Prizes and Awards Committee (2016/2017 & 2017/2018)
- Vice-Chancellor's Representative at Federal University of Technology Akure (FUTA) Convocation Ceremony (March 2017).
- Member, College of Business and Social Sciences Ethics Committee (2018/2019)
- Chairman, Department of Economics and Development Studies- Ethics and Disciplinary Committee (2018/2019)
- Member, Department of Economics and Development Studies- Academic Standard, Quality Assurance and Lectures Monitoring Committee (2018/2019)

2. 2011-2013 : ONIGA Health and Population Programs LLC, Baltimore, Maryland USA: Executive Director.

Responsibilities : Provide administrative and technical leadership to the independent consulting and contracting company that engages in providing research consultations, training and services in population, health and social programs. Specific activities include:

- **Monitoring and Evaluation Research**
 - Design program monitoring and evaluation plans including the indicators
 - Design pre and post intervention data collection and analysis plans

- Carry out data collection, analysis and report writing.
- ***Training in Research Methods and in Programs Monitoring and Evaluation.***

Notable Engagement (Nov 2012 – March 2013): Evaluation of the Nigerian Governors Immunization Leadership Challenge to determine how best to use incentive-based advocacy interventions to catalyze political commitment to Polio Eradication and improvement of Routine Immunization in Nigeria. In partnership with Solina Health (Nigeria). Funded by Bill and Melinda Gates Foundation, USA.

3. 2010 – 2011: SOLINA Health LLC, Clarksville, Maryland – Consultant

Responsibilities: Research grant proposal writing, research study design, training of field workers, supervised data collection, analysed research data, and wrote research reports..

Notable Accomplishment: Between January and September 2011, engaged in a Bill and Melinda Gates Foundation granted research project titled, “Landscape Analysis of Routine Immunization in Nigeria” (LARI). The International Vaccine Access Center (IVAC) at Johns Hopkins School of Public Health was a major collaborator in this study. This work has led to papers written and presented at scientific meetings. It had also led to further Gates Foundation involvement and support for childhood immunization programs in Nigeria

4. 2001-2009: The Johns Hopkins Bloomberg School of Public Health, USA: Senior Associate (Research Faculty) and Academic Training Coordinator, The Bill and Melinda Gates Institute, Department of Population Family and Reproductive Health (PFHS), Baltimore, USA

Responsibilities:

- Coordinated all graduate and postgraduate academic training programs (M.Sc., MPH, DRPH, PHD and Postdoctoral) in population and reproductive health (PRH).
- Taught courses in Demography and in Population and Reproductive Health (PRH).
- Supervised and monitored research works of graduate students and fellows.
- Organized regular seminars/journal club series for scholars/fellows/faculty on international population and health issues including programs and policies.
- Co-Chair, Research Committee of the Gates Institute, reviewed grant applications and managed approved grants and help bring them to successful completion.
- Developed and conducted collaborative PRH research projects with eight (8) Gates Institute partner institutions in six (6) African countries.
- Monitored and conducted regular assessments of Gates programs in all the African partner institutions
- Member of the Bill and Melinda Gates Institute Executive Committee

- Member of Population, Family and Health Sciences (PFHS) Faculty Admissions Committee.

Major Accomplishments:

- Successfully coordinated and supervised the training of more than fifty graduate and postgraduate students who completed their master, doctoral and postdoctoral studies in PRH at the Johns Hopkins University.
- A major player in the establishment of academic partnership programs in Population and Reproductive Health (PRH) between the Johns Hopkins University and eight universities in six African countries.
- Under my coordination, several dozens of teaching faculty members from Gates Institute Partner Institutions in Africa were sponsored by the Gates Institute to receive advanced trainings in PRH at Johns Hopkins University in order to enhance their capacity to teach various courses in PRH at their institutions at the graduate and postgraduate levels.
- By 2009, more than six hundred (600) graduate students had enrolled in the PRH graduate programs in the partner institutions and more than 200 had graduated with Masters degrees with PRH concentration, the first ever of such graduates in sub-Saharan Africa universities.

5. 1994-2000: Saudi Arabia National Guard - Health Affairs (SANG-HA):
Associate Executive Director, Primary Health Care Directorate and Disease Prevention and Control Program, Riyadh, Saudi Arabia.

Responsibilities:

- Provided technical and administrative leadership to the then newly established Primary Health Care Directorate and supervised many technical and administrative staff.
- Generated the baseline demographic data for National Guard communities, conducted baseline health surveys and established the baseline health status data for the National Guard population.
- Set up and maintain infectious diseases surveillance system in SANG
- Managed the implementation of child immunization programs in SANG communities,
- As a Consultant to the King Fahad Hospital – a tertiary hospital under SANG-HA, taught courses in demography, epidemiology and biostatistics including research methods to resident doctors and paramedicals.
- Served as member of Medical Research Committee of SANG-HA.
- Carried out clinical and social health research with clinicians and other researchers and published research study findings.

Major Accomplishments:

- Helped to establish, implement and manage Primary Health Care and Infection Prevention and Control programs in SANG-HA shortly after the first Gulf war.
- Based on the diseases surveillance system that I helped to establish in SANG-HA, and also due to timely analysis and publications of surveillance data, a major outbreak of measles among children in SANG communities was prevented in 1998 through early detection of increasing trend of measles incidence among children.

This led to a community-wide immunization against measles which stopped the potential outbreak.

- Published several peer-reviewed journal articles and monographs from the research and other program activities that I led in SANG-HA.
- Received from SANG-HA Management, a golden plaque award for dedicated and effective administrative and program leadership in SANG-HA.

6. 1993-1994: King Saudi University, Riyadh, Saudi Arabia:

Professor and Consultant Biostatistician, Department of Community Medicine, College of Medicine and King Khalid Hospital.

Responsibilities:

- Taught demography, epidemiology and biostatistics courses to medical undergraduate and postgraduate students and supervised students research projects.
- Conducted collaborative research and provided research consultations to other researchers in the College

4. 1987-1997: The Johns Hopkins School of Public Health, USA : Appointed as Associate in two Departments:

1. Department. of Population Dynamics and
2. Department. of International Health

Responsibilities:

Co-Investigator and Coordinator/Manager of collaborative research studies with Johns Hopkins University faculty in the Departments of Population Dynamics (now PFRH) and International Health, on various research projects in Nigeria including

1. Determinants of Fertility in Nigeria, and
2. Child Survival Research (Applied Diarrheal Disease Research - ADDR) .

Major Accomplishments:

- A major outcome from one of the research projects, i.e., the ADDR project, was the development of a **new weaning diet for infants** and very young children that was made from locally available food items/ingredients, which was named, “**Eko Ilera**” (i.e., **healthy pap**). It was nutrient dense and also very effective for alleviating complications from diarrhea disease among infants and young Nigerian children..
- Major scientific knowledge on management of childhood diarrhea and weaning was shared at conferences and through several peer-reviewed journal articles, books and monographs.
- Researchers from four Universities in Nigeria were involved in these research projects (University of Ilorin, University of Ibadan, Obafemi Awolowo University and University of Lagos). Our international research collaborators for these projects were from Johns Hopkins University, USA and Harvard University, USA. The collaboration enhances the research capabilities of the Nigerian researchers significantly as it opened us up to more applied research activities.

5. 1980-1995: University of Ilorin, Nigeria: Professor (1990), Senior Lecturer (1986); Lecturer I (1981). Department of Epidemiology & Community Health, Faculty of Health Sciences.

Responsibilities:

- Taught demography, epidemiology and biostatistics courses and supervised scores of undergraduate and postgraduate students research projects.
- Conducted health and social research and provided research consultations.
- **Head of Department**, Department of Epidemiology and Community Health (1989-1990; 1992-1993).
- **Member** of Senate, University of Ilorin, Nigeria (1989-90, 1992-93).
- **Member**, University of Ilorin Budget Estimate Committee (1989-1990).
- **Member**, Governing Council, Institute of Education, University of Ilorin (1989-1992).
- **Member**, University of Ilorin Computer Services Centre Management Board (1986-1990).
- **Member**, Evaluation Committee of Faculty of Health Sciences, University of Ilorin (1986-1990)

Major Accomplishments:

- Successfully mentored dozens of undergraduate and post graduate students
- Attracted major international research grants to the University of Ilorin. Grants and research studies that brought more international recognition and attention to the university.
- Effective and successful coordination/management of the multi-disciplinary, multi-campus research on child survival in Nigeria.
- Published dozens of scientific (peer-reviewed) articles from research works at the University of Ilorin. Papers were also presented at scientific meetings and conferences.
- The international attention to my research activities was a major factor that made the World Health Organization (WHO) to select University of Ilorin as a “**WHO Collaborative Research Center**”. The first University in Nigeria to be so named.
- Provided effective and successful administrative leadership to the Epidemiology and Community Health Department, Faculty of Health Sciences and the University.

6. 1975 – 1980: Other Academic/Professional Engagements:

- **August 1975 – January 1976:** Federal Office of Statistics, Lagos – Statistician II
- **January 1976 – August 1976:** University of Lagos, Institute of Child Health – Graduate Research Assistant
- **September 1976 – September 1977:** The Polytechnic, Ibadan – Assistant Lecturer, Department of Mathematics.
- **September 1979 – April 1980:** University of Benin, Department of Community Medicine – Lecturer II.

HONORS, AWARDS AND RECOGNITIONS

1. **Certificate of Service Appreciation (2009):** “For Dedicated Professional Service To Improve the Health and Welfare of Populations in Disadvantaged Settings”. The Johns Hopkins Bloomberg School of Public Health, Baltimore, USA
2. **Certificate of Recognition (2002):** “For Commitment to the Promotion of Best Practices in Reproductive Health and as a Member of the Best Practices Advisory Group (BPAG)”. Washington, D.C., USA.
3. **Golden Plaque Award (2000):** “For Dedication and Outstanding Program Leadership”. Saudi Arabia National Guard Health Affairs, Riyadh, Saudi Arabia.
4. **Frank W. Notestein Fellow (1990):** A joint annual international award given by the Population Council, New York and Princeton University, USA to an outstanding Population Scientist for further postdoctoral research work in Population Science.
5. **The Paul A. Haper Award (1985):** An annual award to the “Most Outstanding Doctoral Graduating Student” in the Department of Population Dynamics (now Population Family and Reproductive Health), Johns Hopkins University School of Public Health, USA
6. **Honorary Citizen of Baltimore (1985):** A Honor Conferred by the Mayor of Baltimore City for “Outstanding Achievement and Contribution to Knowledge”. Johns Hopkins University, USA
7. **The Population Council, Graduate Fellowship Award (1984):** Johns Hopkins University, USA
8. **University of Ilorin, Academic Staff Development Award: 1981**
9. **Best M.Sc. Dissertation Recognition Award (1979):** Department of Epidemiology and Medical Statistics, University of London School of Hygiene and Tropical Medicine.
10. **British Commonwealth Scholarship Award (1977):** Academic scholarships to selected outstanding graduate students from Commonwealth countries. British Government, UK.
11. **German Academic Scholarship Award – SURPLAS (1972).** An undergraduate merit award to an outstanding student in the Faculty of Science, University of Lagos, Nigeria
12. **National Academic Merit Award (1972):** A Federal Government of Nigeria scholarship award to outstanding undergraduate students in Nigerian universities.
13. **Western State of Nigeria Scholarship Award (1969).** For Higher School Certificate (A/Level) Study at Government College, Ibadan.

ACADEMIC/RESEARCH GRANTS

1. **Covenant University, Grant No: CUCRID RG 008.11.14/FS (2014).** For the Study of Ebola Virus Disease (EVD) in Lagos and Ogun State, Nigeria
2. **Bill and Mellinda Gates Foundation, USA (2012).** For the Evaluation of the “**Nigerian Governors Immunization Leadership Challenge**” on Routine Immunization to Eradicate Polio in Nigeria. (In collaboration with SOLINA Health).
3. **Bill and Mellinda Gates Foundation, USA (2005).** A \$40million Renewal Grant to the Gates Institute at Johns Hopkins University for Academic Training and Research in Population, Family and Reproductive Health.
4. **Carnegie Corporation of New York, USA (1998).** Operation Research Procedures on Maternal Mortality in Rural Community in Nigeria.
5. **United States of America Agency for International Development – USAID (1986).** Study of Diarrheal Diseases in Children in Nigeria. (In collaboration with the Applied Diarrheal Disease Project at Harvard University, USA).

6. **The Population Council and National Science Foundation, USA (1983).** Ph.D. Dissertation Grant to study the “Determinants of Fertility in Kwara State, Nigeria”.
7. **University of Ilorin Senate Research Grant No. 8.251 (1982):** Babana Parasitic Disease Project – A Study of Onchocercal Endemicity in Kwara State, Nigeria.

MEMBERSHIP OF PROFESSIONAL BODIES

Member, Population Association of America
 Member, American Public Health Association
 Member, Global Health Council
 Fellow, Royal Statistical Society of London (FSS)
 Member, Biometric Society of England
 Member, Population Association of Nigeria (PAN)
 Member, Nigerian Statistical Association.
 Member, Nigerian Task Force on Health Transition in Sub-Saharan Africa

RESEARCH ARTICLES, PUBLICATIONS & CITATIONS

A. **Citation Databases** for Evaluating Peer-reviewed Journals, Articles and other Research/Academic Documents, were applied to my publications.

i. **Google Scholar** (as at August, 2018):

In 2014-2016, based on Google Scholar Scores, I was considered to be the topmost researcher at Covenant University and one of the best researchers in Nigeria. My current scores are:

Citations (All Citations) = 1608*; h-Index* = 25; i10-index = 33*

Citations (2013 – 2018 only) = 420; h-index = 13 i10-index = 17

*The number of my citations, the h-index and i10-index are one of the best in Covenant University.

Note: *The h-index is an author-level metric that measures both the productivity and citation impact of the scientist/scholar publications.*

ii. **Scopus** (as at August 2018)

Citations = 761* h-index = 17* (*one of the best in Covenant University)

iii. **Research Gate** (as at January 2018)

Citations = 1011* RG Score = 29.92*; h-index = 20* (*one of the best in CU)
