

**Title:** The Design and Implementation of Online Medical Record System (OMRS)

**Author(s):** Oyelade, O.J.

**Outlet:** International Journal of Natural and Applied Sciences. Vol. 3 (1). 11-21

**Date:**

**Abstract:** The paper addresses the problem of paper based medical record and provides a solution of an online medical record which is cost and time effective. Among others, the system creates an appointment scheduler system, a platform for online consultation and allows patients control their own records while allowing Doctors access when they need it.
